

HARRIS COUNTY TOLL ROAD AUTHORITY

Multiple Vehicle Upload Instructions

This document shall give the required instructions to upload multiple vehicles to a customer's current account.

Important Note: *Users are ALWAYS required to input data and make changes to the Excel file and ALWAYS save the file to CSV (Comma Delimited) format to upload. Changes made directly to the CSV file will result in upload errors.*

Preconditions:

- User has an online EZ account with no violations
- User has the required permissions to upload multiple vehicles from their account

How to Upload Multiple Vehicles?

1. User logs into their account and navigates to the "Vehicles & EZ TAGs" tab.

The customer can see an link "Multiple Vehicles Upload" next to the "add a permanent vehicle" link, if they have the permissions for a multiple vehicle upload.

Note: if they do not see the multiple vehicle upload link, either they do not have the permissions to this feature. They can call Customer Service for more information.

EZ TAG vehicle(s) | [add a permanent vehicle](#) | [Multiple Vehicle Upload](#) |

11 items found, displaying all items.

Nickname	EZ TAG #	Lic Plate	State	Year	Make	Model	Color	Tag Status
TX-FLEET004	FLT00267958	FLEET004	TX	2007	BMW	FURY	RED	Active

2. User clicks on the "Multiple Vehicles Upload" link.

The 'Multiple Vehicle Upload' page is displayed with 3 separate sections; the option to download instructions (PDF file), download Multiple Vehicle Upload template (Excel file) and to upload the completed file (edited in Excel and saved as CSV file).

Account Summary
Account Activity
Account Information
Vehicles & EZ TAGs
Payments & Orders

Multiple Vehicle Upload

[DOWNLOAD Instructions](#)
Requires Adobe Acrobat Reader [available here](#)

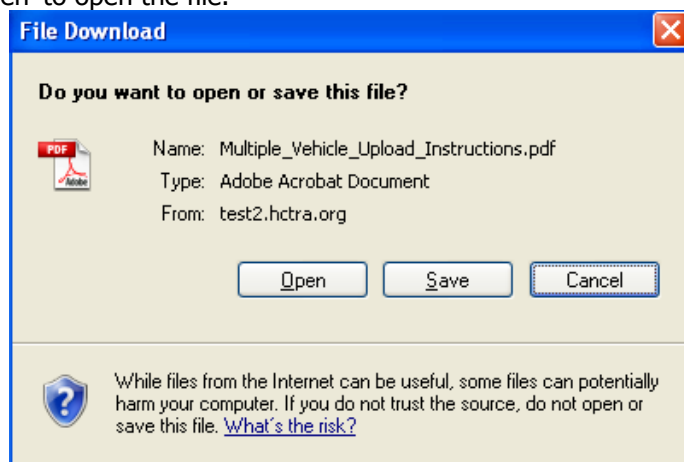

[DOWNLOAD Multiple Vehicle Template](#) Requires Microsoft Excel (.xls) 100kb

[Upload Completed Vehicle File \(CSV format\)](#)

⊖ CANCEL (do not save changes)

3. Click on "Download Instructions" link

A standard windows message either to Open or Save the file or Cancel is displayed. Click 'Open' to open the file.

A pdf file is opened with the instructions (*this document*) on how to download the template and use it to fill in the data. It also gives instructions on how to save the completed excel file into a csv format and upload the data successfully.

Multiple Vehicle Upload Instructions

This document shall give the required instructions to upload multiple vehicles to a customer's current account.

Important Note: *Users are ALWAYS required to input data and make changes to the Excel file and ALWAYS save the file to CSV (Comma Delimited) format to upload. Changes made directly to the CSV file will result in upload errors.*

Preconditions:

- User has an online EZ account with no violations
- User has the required permissions to upload multiple vehicles from their account

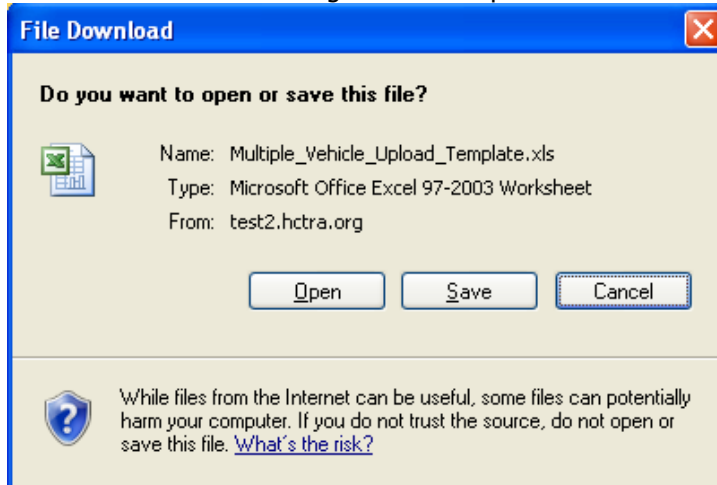

How to Upload Multiple Vehicles?

1. User logs into their account and navigates to the "Vehicles & EZ TAGs" tab.

The customer can see an link "Upload Multiple Vehicles" next to the "add a permanent vehicle" link, if they have the permissions for a multiple vehicle upload.

4. Click on "Download Multiple Vehicle Template" link

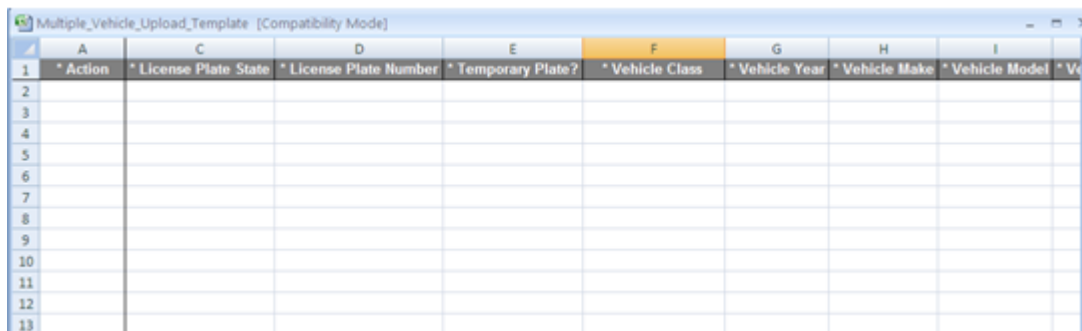

A standard windows message either to Open or Save the file or Cancel is displayed.

5. Click on "Open" to open the template file

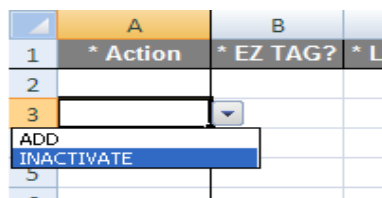

A template file with zero rows and required data columns (columns identified with * are mandatory) is opened.

Note: Microsoft Excel is required to open the file.

6. Add the vehicle information as instructed in the file

Select the predefined values from the columns (dropdown) wherever available. See example below.

Below are the descriptions of the columns:

Action Columns: Indicate the action required (add a vehicle tag or inactivate a vehicle tag)

EZ TAG?: Indicate if the vehicle is an EZ Tag (Y) or a Fleet (N).

License Plate State: Select the state of the license plate (eg: TX or AZ)

License Plate Number: Enter the vehicle license plate number
Temporary Plate: Indicate if the request is for a temporary plate
Vehicle Class: Indicate the vehicle class from the dropdown (eg: Two Axle Vehicle)
Vehicle Year: Select the vehicle year (eg: 2005)
Vehicle Make: Select the vehicle make (eg: Toyota)
Vehicle Model: Enter the vehicle model (eg: Camry)
Vehicle Color: Enter the vehicle color (eg: white)
Vehicle Nickname: Enter the vehicle nickname if any (optional)

Below is an example.

	A	B	C	D	E	F	G	H	I	J	K
	* Action	* EZ TAG?	ense Plate S	* License Plate Number	* Temporary Plate?	* Vehicle Class	* Vehicle Year	* Vehicle Make	* Vehicle Model	* Vehicle Color	* Vehicle Nickname
2	ADD	Y	TX		Y	Two Axle Vehicle	2007 Toyota	Camry	Red		
3	INACTIVATE	N	TX	ZR12312	N	Two Axle Vehicle	2007 Honda	Odyssey	Silver		
4	ADD	Y	TX	A123456	N	Two Axle Vehicle	2010 Dodge	Ram	Black		MyDodge
5											

Note: Take note of the below points before entering your data.

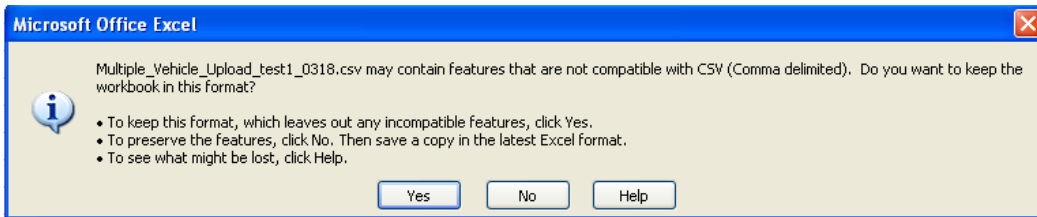

- Only a Max of 1500 rows can be added at one time
- Each row is identified with one vehicle for either addition or inactivation of a TAG
- All required columns (*) need to be completed for every row
- Only Fleet vehicles and EZ TAG vehicles can be added
- Inactivation of Fleet & EZ Tag Vehicles can also be entered
- Only EZ Tag vehicles can be temporary vehicles
- Temporary vehicles do not need a license plate entry

7. Once all the required information is entered and validated, save the file as a "Comma separated" file (CSV format) on your local system.

- Click save as and change the file name as desired
- Under the "Save as type" select the CSV (Comma Delimited)
- Click "Save"

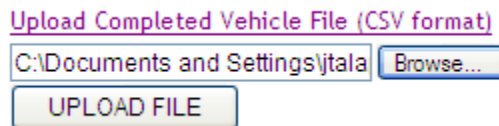

If you encounter any compatibility messages like below while saving or closing the CSV formal file, click on "YES" button to continue.

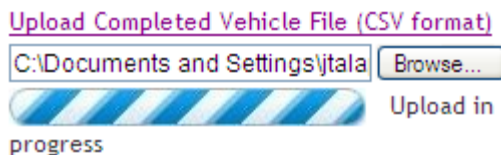

Close the saved CSV file before moving to the next step (upload)

- Now return back to the "Multiple Vehicle Upload" page on your browser and click on the "Upload Completed Vehicle File (CSV format)" link and select the saved CSV file from your local system.

- Click on the "Upload File" Button

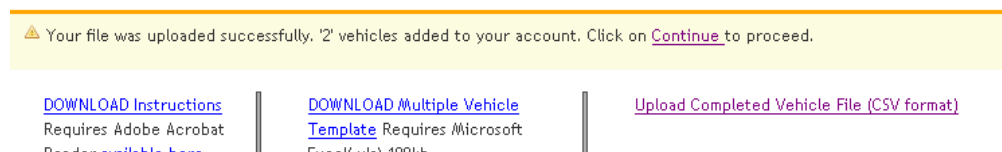

Upload will start and the display would indicate the progress bar

The progress bar will disappear once the upload process is completed.

If no errors with the uploaded file and your upload is successful, the below message is displayed

Multiple Vehicle Upload

Click on "Continue" link to be directed to the next step.

- If the customer only added EZ Tag Vehicles during the upload, the customer is routed to the confirmation page with the list of vehicles and the required payment (no payment for Fleet vehicles) for the order/request.

Choose delivery method

- ☒ Ship the EZ TAG(s) to my mailing address. I prefer to receive my EZ TAG(s) within 10 to 15 business days
- ☐ Do not ship the EZ TAG(s) to my mailing address. I prefer to pick them up in person

EZ TAG(s) requested for the following Vehicle(s):

2008 Audi reg – 2008 red Audi reg, AZ tr34556

2006 Acura def – 2006 wt Acura def, AR xyz1234

Payments:

Starting EZ Account Balance	\$	\$450.00
Total Payment:	\$	0.00

*Activation fee of \$30.00 will be charged after the order is fulfilled.

Make Payment >>

Click on "Make Payment" to confirm the new vehicles.

- If customer added EZ Tags and also requested inactivation of existing vehicles during the Multiple vehicle upload, the customer is routed to the confirmation page with the list of vehicles for new tags and the required payment (no payment for Fleet vehicles) for the order/request.
- If customer only requested inactivated of current active vehicles, the customer is redirected to the vehicles and EZ Tags page to view the changes to the status of the requested vehicles.

The customer can verify the uploaded & inactivated tags by going back to the "Vehicles & EZ TAG's" page to view the newly uploaded vehicles, or changes in status.

If the uploaded file has errors, an error message indicating that uploaded file has errors is shown on the page along with a downloadable PDF error report with details if any of the below happens...

- Incorrect Format/missing data
- Incorrect Values of the data
- Unpaid violation invoices against the license plate
- Duplicate license plate additions of vehicles (fleet and EZ TAG)
- Inactivation of Fleet or EZ TAG vehicles where the tag status is not "Active"

The vehicles submitted for multiple vehicle upload contains errors. Please correct the data and re-submit. Click [here](#) to download the errors in PDF

10. Click on "here" link on the error message to open/download the PDF report

The report shows the details specifics of the errors on the uploaded file indicating the row#.

Multiple Vehicle
Upload Report

Run Time: February 16, 2009 1:3:12

<u>STATE</u>	<u>LICENSE PLAT</u>	<u>ERROR MSG</u>
TX	EZTAGTEST1	Row 2, UNABLE TO INACTIVATE VEHICLE because license plate TX-EZTAGTEST1 and EZ TAG status is not Active.
TX	TESTEZTAG2	Row 3, Please select a valid vehicle make from the list.

Make the required corrections as per the error report to redo the steps 7 through 9 to upload file successfully.

Note: Do not make changes to the CSV file directly, open the template in excel and make the changes to save it in CSV format again.

Important Note: *Users are ALWAYS required to input data and make changes to the Excel file and ALWAYS save the file to CSV (Comma Delimited) format to upload. Changes made directly to the CSV file will result in upload errors.*
